Zappiti One SE 4K HDR: Dual HDMI output + Internal 3.5" SATA HDD

Zappiti Duo 4K HDR: Dual internal 3.5" SATA HDD bay with hot swap function

Zappiti PRO 4K HDR: Dual internal 3.5" SATA HDD bay with hot swap function, high end power supply and components, first media player in the world to receive ISF Certification

Zappiti PRO 4K HDR CINEMA Edition The PRO 4K HDR, tweaked and finely tuned by Audiocom, the world reference company specialized in mods of high end AV & Hifi equipments

Zappiti Mini 4K HDR: *The Entry Level*

- *HDMI 2.0a*
- *HEVC / H.265 with 10-Bit support*
- *HDR (High Dynamic Range)*
- *4K 60p and auto-framerate*
- *Dolby Atmos / DTS:X*
- *Zappiti Video (integrated media center)*
- *Backlit Remote Control*
- *IR extender / IP control + drivers*
- ***SATA connector for external HDD (up to 16 TB)***
- *Zappiti MagicPixel v2 enhancement*
- *Tablet / smartphone app*
- *Zappiti Music Control app to control music without TV*

Zappiti One 4K HDR: *The Master One*

- *HDMI 2.0a*
- *HEVC / H.265 with 10-Bit support*
- *HDR (High Dynamic Range)*
- *4K 60p and auto-framerate*
- *Dolby Atmos / DTS:X*
- *Backlit Remote Control*
- ***5x USB ports***
- ***Coaxial Digital Audio Output***
- *IR / IP control + drivers*
- *Zappiti MagicPixel v2 enhancement*
- *Zappiti Video (integrated media center)*
- *Tablet / smartphone app*
- ***SATA HDD slot with hot swap function (up to 32 TB)***

HDD not included.

Zappiti One SE 4K HDR: *The Special Edition*

- *Dual HDMI 2.0a (Main and Audio Only)*
- *HEVC / H.265 with 10-Bit support*
- *HDR (High Dynamic Range)*
- *4K 60p and auto-framerate*
- *Dolby Atmos / DTS:X*
- **5x USB ports**
- *Backlit Remote Control*
- *IR extender / IP control + drivers*
- *Coaxial Digital Audio Output (Gold)*
- *Zappiti MagicPixel v2 enhancement*
- *Zappiti Video (integrated media center)*
- *Tablet / smartphone app*
- **SATA HDD slot with hot swap function (up to 32 TB)**
- **Removable Wi-Fi antennas**

Zappiti Player 4K Duo: *The First Class*

The world first HDMI 2.0 media player with dual HDD slot.

- *HDMI 2.0a*
- *HEVC / H.265 with 10-Bit support*
- *HDR (High Dynamic Range)*
- *4K 60p and auto-framerate*
- *Zappiti Media Center V4*
- *Backlit Remote Control*
- *IR / IP control + drivers*
- *Coaxial Digital Audio Output*
- *5x USB ports*
- *Zappiti MagicPixel v2 enhancement*
- *Tablet / smartphone app*
- *Dolby Atmos / DTS:X*
- *Dual SATA HDD slot with hot swap function (up to 32 TB)*

Zappiti Pro 4K HDR : *High-End Media Player*

The First Universal Media Player in the industry to receive ISF Certification

- *Dual HDMI 2.0a (Main and Audio Only)*
- *HDMI in*
- *HEVC / H.265 with 10-Bit support*
- *HDR (High Dynamic Range)*
- *4K 60p and auto-framerate*
- *Zappiti Media Center V4*
- *Backlit Remote Control*
- *IR / IP control + drivers*
- *Ultra-rigid steel chassis*
- *High Quality Headphone Output*
- *Coaxial Digital Audio Output*
- *Zappiti MagicPixel v2.5 enhancement*
- *Tablet / smartphone app*
- *Dolby Atmos / DTS:X*
- *Dual SATA HDD slot with hot swap function (up to 32 TB)*
- *High-end power supply (R -Core)*
- *Zero Signal*
- *Gold -Plated Ports*
- *Top-quality components*
- *Fanless*

Zappiti Pro 4K HDR Audiocom : *Cinema Edition*

Same specifications as the PRO 4K plus :

Power Supply upgrades

Audiocom's Pro 4K Cinema Edition features an improved power supply using components specially selected to achieve the lowest noise; including high current Schottky diodes, audio-grade low ESR capacitors with additional film bypassing. The benefits are a reduction in noise artefacts at the output resulting in a cleaner power supply.

Femto Clock

Realising the importance of low jitter in the video domain, Audiocom installs a very high precision clock for the Realtek RTD1295 processor (SoC) to optimise the video and audio data processing. The new clock is highly accurate to within 0.01ppm with an extremely low jitter figure of 77 Femtoseconds making it one of the lowest in the industry.

New Power Supply Filtering

Audiocom equips the Pro 4K Cinema Edition with enhanced power supply filtering; for a cleaner AC mains supply. A very high-quality Furutech NCF IEC inlet with 6N Copper wiring is fitted to the power input board. Furutech's NCF technology provides the ultimate electrical and mechanical damping to the incoming power line achieving a lower noise floor.

EMI/RFI Conditioning

A digital media player is a busy environment for electromagnetic noise. This high-frequency noise spectrum can pollute the sensitive power supply circuits and reduce performance. Audiocom applies a material that works to cancel out the negative effects of EMI noise and improve the conditions for video and audio signal transfer.

Zappiti NAS RIP

Our powerful 8-bay NAS with RIP function can backup your Audio CD, DVD, Blu-ray (2D/3D) and even UHD 4K discs! It's the perfect solution for home entertainment to enjoy audio and video content in multiple room in your home.

With high performance video processing technology and a rich integrated media center application, the all new Zappiti NAS RIP 4K HDR delivers an optimal value for Zappiti users to build up an ideal video library storage and features a rich entertainment hub.

Zappiti NAS RIP 4K HDR:

CD Audio, DVD, Blu-ray (2D & 3D) and UHD Rip

The built-in optical disc drive supports fully-automated bit-for-bit backup of your 4K UHD Blu-ray, Blu-ray (both 2D & 3D), DVD and Audio CD discs. Open the tray of the Blu-ray player. Insert your disc and this is it! The Zappiti NAS RIP 4K HDR do everything for you! There is nothing else to do! Once your disc is ripped and back up in the internal storage of the Zappiti NAS, it is ejected and you just have to insert another one.

The system Zappiti NAS RIP won many award such as Best of Show Winner at the CEDIA Expo and the winner of the Sound + Image Awards 2018.

Zappiti NAS RIP

Multiroom

Enjoy movies throughout your home by adding Zappiti media players and play Blu-ray quality movies to up to 8 zones simultaneously (up to 16 zones in DVD quality and 4 in 4K quality). Each media player operates independently so you can watch different movies in different rooms of your home.

Zappiti NAS RIP: *Yacht*

With the Zappiti NAS RIP 4K HDR, you can fully enjoy Zappiti in the comfort of your yacht or your private plane even without an Internet connection. All key Zappiti features will be available to enjoy, except for operations requiring an Internet connection such as downloading of movie trailers, subtitle downloads or analysis of new movies. Zappiti works the same way with private planes, motor coaches and other environments with limited or no Internet connection.

Astonishing GUI

The amazing new Zappiti Player 4K sets an entirely new standard in Media Center with an astonishing GUI, 3D effects, motion design, reflections and optional, beautiful skins. Zappiti settings allow you to enable/disable some visual features such as top movie covers (Blu-ray, DVD, MKV, etc...), and light effects.

Zappiti Video

The Zappiti 4K HDR range is compatible with Zappiti Video. This integrated media center offers cover art exploration, while also providing detailed information (subtitles, actors, director, release date...), for your movie and TV show files. Zappiti features an automatic category index of movies and TV shows. Then you can edit information for every file, change the cover, directly from the media player with the RC, from your computer MAC/PC or even from your tablet/smartphone.

Zappiti Video: *Convenient Home Page*

The new Zappiti Video has completely upgraded the media center experience with a new and intuitive home page that provides direct access to your ongoing movies and TV shows or the next episode if you already watched a previous one. On the bottom of the main page, you can add shortcut to any category such as 4K, 3D, concerts, sagas, top movies, children movies, ...

You also can add a shortcut to Zappiti Explorer or Zappiti Music.

Zappiti Collections.

For each Zappiti account it is possible to create as many collection as you want. If you have two different houses, you can manage two media collections from a single computer or from a Zappiti media player. If you are using many hard drives, you can associate a dedicated collection for each hard drive or different users.

Movies Sagas.

The films from sagas are automatically placed in groups and sorted by release date. A saga cover dedicated to the collection is associated with the group and movies are displayed in a stunning carousel with great 3D motion effects!

Zappiti Bonus Live.

Zappiti Bonus Live give you access to additional contents of the movies such as: Making Of, Deleted Scenes, Extracts, Reviews, Bloopers Reels, Soundtracks...

Zappiti

Movie Wall Experience

Set the Zappiti GUI in:

- 2 rows,
- 3 rows,
- 4 rows,
- or **Movie Wall**

Zappiti Music

Zappiti Music is a new app dedicated to music playback designed for Zappiti players. Listen to your favorite tracks, and manage your music collection in a simple way. With Zappiti Music you can play your favorite music stored anywhere on your home network or on a local drive connected to your Zappiti media player.

Playback Options:

- Timeline direct access.
- Loop (Title/Playlist).
- Shuffle.
- Chained.
- Next/Previous track.
- Play/Pause.

Key Features:

- File management (copy, cut, past, rename...).
- Playlist management.
- Favorite management.
- Track exclusion.
- Compatible with both Zappiti 4K & 4K HDR.
- Media info and tags.
- Thumbnails (internal and external in JPG).
- Search engine (filters).
- Folder shortcuts.
- Compatible with tablets and smartphones Android & iOS.

What Press reviews say about Zappiti:

SECRETS of and **Home Theater High Fidelity**[®]

When I review media players, I concentrate mainly on the software and the user interface. But *Zappiti presents a compelling image that is cut above what I've seen from rank-and-file streamers like Roku and Apple TV.*

Suffice it to say that the Pro 4K Player's output is every bit as good as what I see from my OPPO UDP-203.

There's very little to complain about here. The Zappiti Pro 4K HDR Media Player has gone where home theater PCs and DIY movie servers have failed to go. Zappiti has come up with a slick and intuitive user interface that rivals that of the best streaming boxes while offering easy access to almost limitless content. Thanks to its 32TB storage capacity, you can add the contents of 600 Blu-rays or 300 Ultra HD discs. And through its networking capability, you can add more boxes if your library grows larger than that. Since it also serves up music and photos, it truly can be a one-box solution for delivering media in the home.
